# HORNET W85 H INOX: DEF TRANSFER PUMP

Stainless steel pump construction | Continuous duty cycle | 13 ft. suction lift

**CONTINUOUS  
DUTY  
CYCLE**

The HORNET W85 H INOX is a one-of-a-kind system featuring two different types of technologies in a single pump. The HORNET offers both a vane and centrifugal combination system for faster, better performance. As the world's first self-priming hybrid pump, the HORNET boasts technology and performance on every level.

## Description: US108601200 Hornet W85

100 % continuous duty cycle | Thermal overload protection

Power	115/60	V/Hz
Discharge hose	20	ft.
Suction lift	13	ft.
Max. pressure	36	psi
Flow rate (with accessories)	10	gpm
Inlet/outlet (BSP)	3/4	in.
Dimensions (W x D x H)	8 x 5 x 10	in.

## Description: US108600401 Drum

Get the same robust tote package in a drum application with various configurations to fit your specific needs. Available in 110V or 12V with Micro Matic poly or stainless steel coupler, upon request.

The HORNET W85 offers a

**13  
FT**

suction lift

Capable of pushing product through various hose lengths

**25  
50  
100  
FT**

Vane + centrifugal technologies =

**100 %** continuous duty cycle

which means **zero** waiting time

\*Highlighted features available for **both** the HORNET W85 DEF (pg. 6) and Diesel (pg. 7) pumps
