TRUCK (BELLY) BOXES

OPTIMUM FEATURES

Space efficiency | Value-driven | Quality | Customized components | Robust

Description: USTRUCK-BOX (Custom Package)

TECALEMIT offers space efficiency at the highest level with custom built truck belly boxes.

If you're familiar with fluid distribution transport trailers, you understand the necessity of having efficient storage underneath the truck frame. The truck belly box creates the perfect home for crucial pieces of equipment to reside during the jarring ride to and from deliveries. Each system is assembled locally by skilled personnel.
